## Are You Interested

In seeing the cities of Nor-wich and Hartford connected by a trolley line? Assuming that you are, the following facts are submitted to you for your con-

sideration: a. Over \$300,000 of the 6 per cent. Cumulative Preferred Stock of the Norwich, Colches-ter & Hartford Traction Co., have already been subscribed.

b. By the building of this trolley line more than 170,000 people would be served. Outside of the terminal cities of Norwich and Hartford, the road would pass through the villages of Yantic, Fitchville, Bozrah, Colchester, North Westchester, Mariboro, Buck's Corners, Nipsic, East Glastonbury, Addison Hilltown and East Hartford. Hilltown and East Hartford.

c. The average population per mile would be over 4,200, which would form a fair basis upon which to figure passenger earnings. The freight and ex-press shipments must of necessity be large owing to the active business and manufacturing centers through which the trol-ley would pass, d. Comparing the benefits nat Norwich has received in

the past, as a result of trolley extension, are you not in hearty sympathy with this effort to add another road to the list and to place our city within 14 hours of the capitol city of the state? e. Subscriptions to \$100,000 of this stock, the balance of the

authorized issue, are now solicted in large or small amounts, proposition is asked for. f. Full descriptive circular will be mailed to you, or additional information given upon
